## General

- The RST measures the room temperature and transmits the reading to the associated RSR, which is placed in an interior unit.
- The RST features a push-button and an LED.

## Initial configuration and start-up

1. Pull on the plastic strip to remove the protective film from the battery.
2. Remove the film from the double-sided tape on the rear face and fix the RST in the desired position.
3. Next, press the push-button on the RSR in the interior unit for approximately 3 seconds until the LED on the RSR starts to flash.  
Next, within 5 minutes of the above, press the push-button on the RST in order to establish the connection between the RSR and RST.
4. Release the push-button on the RST when the red LED lights up (after approximately 3 seconds).

	<p><b>Place the RST and the associated RSR no more than 10 metres away from each other.</b></p> <p><b>Obstacles between or close to an RST and the associated RSR may adversely affect the RST's range. Please, bear this in mind when positioning the RST.</b></p>
---	---

## Battery replacement

1. Carefully insert the tip of a screwdriver into the aperture under the narrow tab and remove the cover.
2. Remove the old battery.
3. Insert the new battery (+ faces up).
4. Slide the battery home into the holder.
5. Put the cover back on and press down in the area of the narrow tab to lock the cover.

## Status information

Press the push-button briefly once to display the current status.

Status	LED display	Description
Normal	1 x long	The RST is functioning normally
Battery low	1 x long, 1 x short	Replace the battery
Sensor fault	1 x long, 2 x short	The room is too hot or too cold (or the sensor is defective)
Sensor defective	1 x long, 3 x short	Replace the RST
Battery depleted	LED does not light up	Replace the battery
Connecting	2 seconds	Connection request sent

## Technical specifications

Dimensions	ø 75 mm x 14mm
Weight	40 grammes
Power supply	3 volt disposable lithium battery; Type Renata CR2032 or Varta CR2032
Ambient temperature (storage and shipping)	-20 - 60 °C
Ambient temperature (operation)	0 - 50 °C
Relative humidity	5 - 90 % (not condensing)
Safety class	EN60335-1: 2006 and EN60335-2-40: 2009 Electrical safety
EMC	EN61000-6-3: 2007 Emissions EN61000-6-1: 2007 Immunity ETSI-EN-300-220-1: 2006 Electromagnetic compatibility and Radio spectrum Matters (ERM); Short Range Devices (SRD)
Communication	RF, 868.3 MHz
Maximum range	10 metres

Dit product dient aan het einde van zijn levensduur in overeenstemming met de geldende wettelijke voorschriften te worden afgevoerd.

When no longer serviceable, this product must be disposed of in accordance with the applicable statutory regulations.

Dieses Produkt muss am Ende seiner Lebensdauer entsprechend den geltenden gesetzlichen Vorschriften entsorgt werden.

Ce produit doit être évacué à la fin de son cycle de vie, conformément aux prescriptions légales en vigueur.

Al termine del proprio ciclo di vita utile il presente prodotto deve essere smaltito in conformità alle normative e alle leggi localmente in vigore.

Al final de su vida útil, este producto debe descartarse de conformidad con las disposiciones legales vigentes.

Este produto, no fim da sua vida útil, deve ser eliminado em conformidade com as normas legais em vigor.

Στο τέλος της ζωής της η παρούσα συσκευή πρέπει να διατεθεί στα απορρίμματα σύμφωνα με τους ισχύοντες νομικούς κανονισμούς.

Bu ürün, kullanım ömrünün sonunda geçerli mevzuatlara uygun olarak atılır.

Dit product bevat een batterij. De batterij mag aan het eind van zijn levensduur niet weggegooid worden, maar moet ingeleverd worden als KCA.

This product contains a battery. The battery may not be thrown away as normal refuse when depleted. It must be disposed of as household chemical waste.

Dieses Produkt muss am Ende seiner Lebensdauer entsprechend den geltenden gesetzlichen Vorschriften entsorgt werden.

Ce produit contient une batterie. La batterie ne peut pas être jetée lorsqu'elle arrive en fin de cycle de vie. Elle doit être rentrée comme pièce à recycler.

Questo prodotto contiene una batteria. Al termine del proprio ciclo di vita utile la batteria non deve essere gettata fra i rifiuti domestici, ma deve essere smaltita nel pieno rispetto delle norme ecologiche per la raccolta delle batterie usate.

Este producto utiliza una pila. Al final de su vida útil, la pila debe descartarse según las disposiciones legales vigentes para residuos químicos menores.

Este produto contém 1 bateria. Após o término da sua vida útil, a bateria não deve ser deitada fora mas recolhida como resíduo químico pequeno.

Το προϊόν περιέχει μια μπαταρία. Στο τέλος της ζωής της, η μπαταρία δεν πρέπει να διατεθεί στα απορρίμματα, αλλά πρέπει να παραδοθεί στις μικρές ποσότητες χημικών αποβλήτων.

Bu ürün, bir pil içermektedir. Kullanım ömrünün sonunda atılamaz, ancak küçük kimyasal çöp olarak teslim edilir.
